Get Lost.....In Paradise

The Week family, Wally, Wilma and Herbert, are on your Computer once again in what could only be the final frontier for them.

Wally has decided to take his wife and son on a little cruise this year but his choice of transport, a Pedalo no less, leaves them lost on a Desert Island.

Wilma and Herbert wander off, only to be captured by the local natives, The Can Nibbles. Can Wally get his head and body together enough to save the family Week or will they all be Nibbled to death?

Don't desert them, your help is needed to guide Wally through the superb Jungle scenes (so many it's easy to get lost); to rescue his loved ones. (Whether they want it or not).
